

Roxana Xonali Orozco de Plesnar

Non-Traditional Aspects of the Mexican Financial Crisis of 1994/95

Structural Weaknesses in the Real Sector
and the Role of Domestic Investors,
OTC Derivatives & Synthetic Capital Flows

Table of Contents

Foreword	7
Acknowledgments	9
Figure Index	15
Table Index	17
Abbreviations List	19
 1 Introduction and Structure	23
I. Macroeconomic Aspects: Stylized Facts and Literature Review	27
2 Liberalization and Macroeconomic Developments	27
2.1 Liberalization Theory: Rationale, Expected Results and Policy Recommendations	27
2.2 Liberalization in Mexico and Selected Effects	30
2.2.1 Trade Liberalization	30
2.2.2 Financial Liberalization	31
2.2.3 The Pegged- Exchange Rate Management	32
2.2.4 Selected Effect of Liberalization: Real Exchange Appreciation	33
2.2.5 Selected Effect of Liberalization: Current Account Deficits	36
2.3 The Structural Reform and Macroeconomic Policy	38
2.3.1 Introduction: The Persistent Inflation.....	38
2.3.2 Fiscal Policy.....	40
2.3.3 Monetary Policy	41
2.3.4 Other Macroeconomic Performance	44
2.4 Eruption of the Crisis.....	47
3 Theoretical Considerations: Mundell-Fleming Model & Selected Models	49
3.1 Mundell-Fleming Model: Introduction	49
3.2 Mundell-Fleming Model Policy and Exogenous Changes	52
3.2.1 Changes in Aggregate Demand Components.....	52
3.2.2 Changes in Monetary Supply	53
3.2.3 Changes in the Foreign Exchange Markets.....	54
3.3 Policy Implications for Small Economies with High Levels of Imports in the Mundell-Fleming Model	58

3.3.1	Rationality and the Adjustment.....	58
3.3.2	Existent Estimations of Mexico's Income Elasticity of Demand for Imports	60
3.3.3	Estimation of Mexico's Import Contents of Aggregate Demand Components	61
3.3.4	Policy Implications	63
3.4	Macroeconomic Overview in 1994 and the Mundell-Fleming Model	64
3.4.1	Final Considerations Regarding the Mundell-Fleming Model	68
3.5	Crisis Models	68
3.5.1	First Generation Models.....	69
3.5.2	Second Generation Models.....	70
3.5.3	Third Generation Models.....	71
3.6	Macroeconomic Conclusions	75
II.	Microeconomic Aspects of Mexico's Trade	77
4	The Trade Structure Revisited.....	77
4.1	Theoretical Framework	78
4.1.1	Expected Trade Pattern	78
4.1.2	Factor Intensity and the Product Life Cycle Hypothesis	80
4.2	Empirics of Mexican Exports.....	84
4.2.1	An Introduction to Nominal Data	84
4.2.2	Factor Intensity of Exports	89
4.2.3	Exports and the "Maquila Context"	92
4.3	Trade Structure, Exchange Rate Appreciation and Exports Performance: Regression Analysis	99
4.3.1	Introduction and Rationality.....	99
4.3.2	Methodology and Results.....	101
4.4	Final Considerations on the Trade Structure and its Implications on the Mexican Crisis.....	103
III.	Financial Elements of the Mexican Crisis: The Real Culprits	105
5	International Capital Markets in the Early Nineties.....	105
5.1	Macro-aspects of International Capital Flows	105
5.1.1	Capital Inflows to Emerging Markets.....	105
5.1.2	Developments in the International Financial Markets in 1994.....	107

5.1.3	Capital Inflows to Mexico	108
5.2	Origin of International Capitals and their Diverging Behavior.....	112
5.2.1	Dynamics of Mexican Capitals	112
5.2.2	Dynamics of U.S. Institutional Investment in Mexico	121
5.2.3	Appraisal of the Official Data.....	123
5.3	Conclusions on Capital Inflows	128
6	Inefficient Credit Allocation and the Banking Sector.....	131
6.1	Antecedents of the Private Banking Sector and the State Banks (1982-1992)	131
6.2	The Privatization Process 1991-1992	133
6.3	Early Performance of the Re-privatized Banks: the Disproportionate Credit Expansion	135
6.4	Factors Related to the Credit Boom.....	137
6.5	Conclusions on the Performance the Banking Sector.....	141
7	Derivatives and the Role of Synthetic Capital Flows in the Mexican Crisis.....	143
7.1	Literature Review on Potential Effects of Derivatives: Stand of Awareness in the Early Nineties	144
7.2	Derivative Handling between Mexican and U.S. Investment Banks in the Mexican Crisis of 1994	147
7.2.1	Early use of Derivatives in Mexico	147
7.2.2	Selected Regulatory Issues	149
7.2.3	Financial Institutions and Derivative Operations in 1994	151
7.2.4	Selected Types Derivative Operations	153
7.2.5	Magnitude of Derivatives Use and Conditions in 1994	157
7.2.6	Evidence Supporting the Magnitude and Existence of Derivative Trading	158
7.3	Effects of Derivatives and their Contribution to the Crisis Dynamics	159
7.3.1	Effects of Derivatives on Crisis: Literature Review	161
7.3.2	Possible and Factual Policy Reforms after the Crisis	163
7.4	The Public and Private Financial Sector Institutions and their Implication on the Mexican Crisis.....	165

7.5	Conclusions: Derivatives' Role in the Mexican Crisis.....	166
8	Conclusions and Contributions to Crisis Prevention.....	169
8.1	Research Conclusions	169
8.2	The Mexican Experience: Contributions to Crisis Prevention	171
8.3	Subjects for Further Research	174
	Postscript: Impact of the 2008/9 Global Financial Crisis on the Mexican Economy ...	175
	Macro-indicators and Trends.....	175
	Financial Sector	181
	Other Impacting Forces.....	184
	Concluding remarks	185
	Appendices	
	Appendix 1 Background on the Debt Crisis 1970-1982	193
	Appendix 2 Regression Results and Residual Tests	197
	Bibliography	201
