Details

If each of us on this Earth has 24 hours every day, how do some achieve so much, while others can hardly get by? Is there a way to manage time much more efficiently without losing sight of the good things in life? In this book, August-Wilhelm Scheer, a scientist, entrepreneur, political advisor and passionate jazz saxophonist, presents a definitive guide to time management based on his own experience. The reader is introduced to bold start-ups, exciting corporate takeovers and sales, and the demands on politicians in this regard. In addition to insider tips on the start-up ecosystem, the book offers a wealth of advice on how to manage time effectively.

August-Wilhelm Scheer is one of the most influential scientists and entrepreneurs in German information technology. The ARIS method for process management, which he developed, is used in virtually many DAX companies and internationally. He heads a group of nine companies including Scheer GmbH, imc AG and Scheer PAS GmbH, as well as the non-profit August-Wilhelm Scheer Research Institute.
