Details

This book explores the implications of descriptive, predictive, and prescriptive digital enterprises and their practices for different functional domains and in different countries during COVID-19. This book will bring new dimensions of study to the concept of digital enterprises which is sure to change after COVID-19 as it has upended the way in which people work, live and communicate. Covering a broad range of topics related to digital enterprises, this book is meant for business owners, digital professionals, managers, researchers, and academics who are seeking to integrate digital enterprises in order to allow organizations and countries to stay on a sustainable development trajectory while living with COVID-19.
