Details

This volume explores leadership as a form of loving one's employees, centering on the biblical concepts of Agapao and Agape. It is organized into three parts: Part 1 examines biblical principles about Agapao and Agape; Part 2 employs Positive Organizational Scholarship (POS) to identify the role of love in organizational contexts; Part 3 offers case studies illustrating instances of love demonstrated by biblical figures in organizational and familial settings.

Aligned with POS research, the book accentuates positive, life-giving, and conditions fostering human flourishing within organizations. This scholarly endeavor contributes to advancing research in areas such as work relationships, workplace spirituality, meaningful work, and the role of leadership in improving organizational performance.
