## Details

Nowadays, more and more companies are discovering social networks as a profitable advertising channel. As an unavoidable result, the same picture is emerging on almost every social media platform: very strong competition, low visibility and a fierce battle for the attention and favor of the users. To still inspire and excite them, you have to become a distinctive brand - both as a company and as a person. This book contains valuable tips and tricks for building and maintaining a thriving community and attracting customers on today's most popular social networks, using both unpaid and paid measures. Are you ready for success on social media? □ 750 tips and tricks for social media □ With over 100 post ideas for your own content □ Includes templates for notes and your own strategies □ Total book length 334 pages
