Details

This volume examines how innovation and digital transformation impact the financial and accounting sectors. Featuring selected contributions from the third 'Finance, Accounting and Law in the Digital Age conference 2024' held at the University of Salamanca, Spain, the contributions of this book explore the development of digital finance and the complicated equation between financial stability, the security of investors and financial consumers, sustainable finance, and support for innovation. Climate change and the exponential growth of technology have built an explosion of financial innovation. The digital revolution has recently reached the financial sector, protected by a specific regulatory environment. The volume describes how all areas of finance are now invested by new players who are transforming the banking and financial landscape to create a novel digital ecosystem.
