### Details

This book is dedicated to strategic management research relating to China's SOE. As China's economic system of the day is featured by mixed ownership, state-owned enterprises (SOEs), under the New Normal of economic backdrop, are devoted to exploring the reform of stock resources reorganization, one of which is through mergers and acquisitions (M&A). This book explores the key points and difficulties in the successful reform of Chinese enterprises with mixed ownership by focusing on trust and innovation and by widely covering normative research, index evaluation system, game theory and empirical research with case study. It is significant for evaluating the reform of SOE in China by integrating the informal institutional aspects into the formal one and understanding the leading role of SOE in China's economic development.
