Details

This book charts the roller coaster ride taken by the authors over the past 33 years, in the ongoing fight to acknowledge, prevent, and respond to the rape and sexual abuse of women in conflict and displacement situations. They have worked with an international network of academics, refugee women, and human rights activists in 22 countries. The story moves between refugee camps and the United Nations, refugee settlements in cities and national governments. Theory and ethical research methods are an important part of the story. At times it is very confronting, sometimes amusing and often uplifting.
