## Details

People live by ideas which help them to make sense of their experiences. Yet different people live by different ideas. Without an attempt to communicate and comprehend, they would at best be unable to share, at worst be obliged to fight. This book is concerned with communicating and comprehending. It takes the view that ideas matter and that a dialogue with alternative worldviews is a civilised exercise in tolerance.

*Economic Thought and Political Theory*, concentrates on the ideas of Plato, Steuart, Mill, Schumpeter, Hayek, Buchanan, the Catholic social economists and the property-rights tradition. The focus is dual: the market and the State. As interdisciplinary as the modern mixed economy, as contemporary as the search for middle way, *Economic Thought and Political Theory* will be of interest to all thinkers determined to find a good balance between individuals' autonomy and governmental leadership.
