Details

This book focuses on the progress of G20 members on entrepreneurship services since the G20 Entrepreneurship Action Plan was issued at the G20 Hangzhou Summit in China. The authors analyse the similarities and differences of policy measures taken by G20 members from five aspects of entrepreneurship services: government services, fiscal and financial supports, entrepreneur services, entrepreneurship education, and fair competition for SMEs. The book aims to bridge academic research with the multilevel and diverse practice in entrepreneurial activities and explores how national policies and conditions can promote entrepreneurship among G20 members. This book will inspire the policy-makers, stakeholders in the entrepreneurship ecosystems and scholars on entrepreneurship research as well, on how to promote the entrepreneurship as an effective way to stimulate employment growth, boost innovation development, and realize economic recovery in the post- COVID-19 era.
