Details

This book reviews the development of Chinese economics since the reform and opening-up, associated with the history and experience of China's economic growth. This book makes a systematic study of the direction of reform, the method of reform, the path of reform, the main body of reform and the motive force of reform, accumulates more experiences that can be used for reference for the exploration of new reforms to be opened, and probes into the way of reform in the next period. The topics cover all key concepts and theories relating to the China's economic reform.
